BAR CODE LABELING AND INTEGRATION SOFTWARE

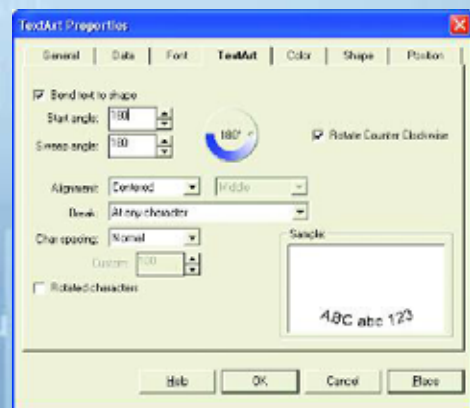

Helpful Design Wizards
Wizards make the design process simple by giving you step-by-step instructions while providing helpful hints.

WHETHER YOU NEED TO DESIGN AND PRINT BAR CODE, COMPLIANCE OR RFID LABELS, LABEL MATRIX 8'S HELPFUL DESIGN WIZARDS GIVE YOU AN EASY-TO-USE SOLUTION IN ANY INDUSTRY.

New RFID Interface
LABEL MATRIX 8 features an easy-to-use interface for printing and programming RFID tags. With TEKLYNX' free DSP utility you can add support for new printers and RFID tags as they become available.

Flexible Text Formatting Options
LABEL MATRIX 8 offers a full complement of text art features, including shaped text with user-definable sweep angles, rotated characters, and new text fill, outline and shadow options.

LABEL MATRIX®

October 2003

Easy-to-use label design software with an intuitive user interface and helpful label design wizards.

The Most Output Options. Only TEKLYNX supports more than 70 bar code options and over 1,000 output devices – giving you the widest range of options for thermal/thermal transfer or Windows printers. TEKLYNX also supports the latest RFID printers and RFID tags. So, whether you need enterprise-wide printing or a stand-alone solution, maximum performance as well as maximum productivity are ensured because all printers are efficiently driven in their native language.

Free Printer Drivers are available from the TEKLYNX DSP (Driver Service Pack) website, resulting in easy download and installation of the latest drivers and RFID tags.

Choose the Leader. Millions of users in scores of industries rely on TEKLYNX software solutions for applications such as shipping, receiving, inventory control, product identification, compliance labeling and asset management. When it comes time to choose, select the most powerful and intuitive software available – LABEL MATRIX 8.

FEATURE	LABEL MATRIX QuickDraw	LABEL MATRIX	LABEL MATRIX PowerPro
General			
Print-only version		•	•
Network version		•	•
Keyless software activation	•	•	•
Live Print Preview (view multiple labels with “live” variable data displayed)		•	•
Label specific security		•	•
Over 100 compliance label templates		•	•
Label Background templates with round label formats	Open	Open	Open/Edit
Automatic paragraph sizing and scale to fit		•	•
Bulleted & numbered lists with hanging indents		•	•
Graphic formats import (bmp, pcx, jpg, tif, etc.)	•	•	•
Color support	•	•	•
Linear bar code support	•	•	•
HIBC support	•	•	•
UCC/EAN 128 and MaxiCode wizards		•	•
2D bar code support		•	•
Extended 2D support including TLC39 and QR Code			•
TextArt Objects/RTF Editor		•	•
Variables			
Keyboard entry at print time	•	•	•
Double entry (verification) ability		•	•
Pick List data entry	•	•	•
Data retrieved from a database file	•	•	•
Counters (serial numbers) with support for alpha/numeric	•	•	•
Counters with custom numbering abilities		•	•
Date and time stamping using multiple formats	•	•	•
Advanced math, string and logical functions		•	•
Expansion Variables (use code “shortcuts” in expressions)		•	•
Database			
Configure an ODBC/OLE DB data source		•	•
Sequential database access	•	•	•
Keyed database access		•	•
SQL query capability/SQL Query Builder Wizard		•	•
Retrieve data from unlimited number of databases per label		•	•
Includes separate Database Editor program		•	•
Data Grid for viewing database records	•	•	•
Directly edit database records in the Data Grid			•
Printing			
Windows driver printer support	•	•	•
Support for over 1000 thermal and thermal transfer printers		•	•
Variable duplicate count from any origin	•	•	•
Stacked printing ability with multiple labels per page			•
Reverse the order of pages in a print job			•
Tools			
Pocket LABEL MATRIX support		(0 licenses)	(1 license)
Directly modify printer code with Job Modifier		•	•
Automatic printing from a source database (AutoPrint)		•	•
Command line support		•	•
Export image and variable information to a data file (Write Data)		•	•
Save all external attached files with the label design (Bundle Save)		•	•
View & customize reports generated from label log files (Log Viewer)			•
Code Converter label conversion utility			•
Extended RFID Tag support			•
OLE Automation			•
Dynamic Data Exchange (DDE)			•
